SIMSON DEBATE PREP · DAY 1 · THU NOV 5

Build an Argument

Name: _____ Partner: _____

Every argument has 3 parts

Claim
AREL: ASSERTION
What you are arguing. One sentence.

Mechanism
AREL: REASONING + EVIDENCE
Why it is true: because… → so… → for example…

Impact
AREL: LINK
Who is affected, and why it matters.

Model: "Schools should not give homework on weekends."

Claim	Schools should not give homework on weekends.
Mechanism	**Because** kids need real rest and family time. **So** they come back focused on Monday. **For example,** adults get weekends off work and come back more productive.
Impact	Students would feel less stressed and have more energy during the week. **That matters because** it affects millions of students, every week, all school year.

Your turn (2 minutes, with your partner)

"Schools should start at 9:30."

Our side (circle one): **FOR** (agree) / **AGAINST** (disagree)

Claim "Our first point is…" (1 sentence)	
Because… Why is it true?	
So… What happens next?	
For example… A fact, case or story	
Impact "This matters because…" (who + why)	

Check: ☐ Claim is one clear sentence ☐ Mechanism has "because" and "so" ☐ There is an example ☐ Impact says who and why

Finished early? Try the other side, or this motion: "Students should wear school uniforms."

Claim	
Mechanism because… so… for example…	
Impact
